PROFESSIONAL SUMMARY

Full Stack Developer (MERN) with 1+ years shipping production APIs and interfaces used by 6,000+ users across multiple live platforms. Builds responsive frontends with React.js, Next.js, TypeScript, and Tailwind CSS, and scalable backends with Node.js, Express.js, MongoDB, PostgreSQL, and Redis. Focused on RESTful API design, RBAC, performance optimization, and CI/CD-driven deployments on AWS EC2.

TECHNICAL SKILLS

Languages	JavaScript (ES6+), TypeScript, Java, SQL
Frontend	React.js, Next.js, Tailwind CSS, Bootstrap
Backend	Node.js, Express.js, RESTful APIs
Databases	MongoDB, PostgreSQL, MySQL, Redis
Tools & DevOps	AWS EC2, CI/CD Pipelines, PM2, Hostinger VPS, Git
Other	RBAC, Cron Jobs, API Optimization, Performance Tuning

WORK EXPERIENCE

Software Developer | Radoms Digital Pvt. Ltd., Greater Noida

May 2025 – Present

Achideal — E-commerce Platform — [achideal.com](#) [Full Stack]

- Architected and designed 250+ backend APIs for authentication, product management, order processing, vendor operations, and notifications (Node.js, MongoDB) for an in-house e-commerce platform currently in development.
- Built a complete Admin Portal from scratch (Next.js, TypeScript, Tailwind CSS) for centralized platform management.
- Developed coupon code and referral code systems to support promotions and user acquisition.
- Built product import/export functionality and warehouse/inventory management modules for stock tracking and fulfilment.
- Implemented Role-Based Access Control (RBAC), audit logging, and content moderation to strengthen platform security and governance.

LMS — Learning Management System — [halatechqtr.com](#) [Full Stack]

- Built and shipped a full-stack Learning Management System (Next.js, Node.js, Express.js, MongoDB) currently serving 300+ users, with course management, enrolment, and progress-tracking features.
- Built secure RESTful APIs for authentication, course access, and user management.
- Developed responsive dashboards for students and administrators with an intuitive user experience.

LitConnect — Writer-Publisher Platform — [litconnect.net](#) [Backend]

- Refactored core business logic in the offer management system serving 1,000+ users, eliminating data inconsistencies and fixing critical bugs across 25+ APIs in push notification flows and scheduled cron jobs.
- Implemented Firebase push notifications from scratch across web and app platforms, enabling real-time user engagement and alerts.
- Designed environment-scoped test-user APIs to support safe QA testing without touching production data.

EscPlan — Inventory Management Middleware — [myescplan.com](#) [Full Stack]

- Designed and built a real-time inventory synchronization system between Shopify and internal platforms, serving 5,000+ users across 3 warehouses with 50+ SKUs.
- Integrated Shopify Inventory APIs to validate stock availability and synchronize inventory across multiple warehouse locations.
- Built RESTful APIs for real-time inventory validation, out-of-stock handling, and dynamic Estimated Delivery Date calculations.

Trainee Software Analyst | Webkul Software Pvt. Ltd., Noida

February 2025 – April 2025

- Developed and enhanced custom Magento 2 modules, including Google Address Autofill and LMS integrations.
- Took each module from requirement to deployment independently, building hands-on fluency in Magento 2 architecture within a 3-month traineeship.

EDUCATION

Master of Computer Applications (MCA) — GL Bajaj College of Technology and Management, Greater Noida

2023 – 2025 | Score: 73.8%

Bachelor of Computer Applications (BCA) — Global Institute of Information Technology, Greater Noida

2020 – 2023 | Score: 73.5%

ACHIEVEMENTS

- Solved 500+ rated coding problems on GeeksforGeeks and LeetCode, strengthening problem-solving and data structure skills.
- Successfully delivered multiple full-stack projects to clients within deadlines.
- Achieved 1st place in a hackathon organized by IIMT Greater Noida, December 2022.
